01 Executive Summary

Felix (\$FELIX) is a community-driven memecoin on Solana built around the world's most charismatic cat. Born from internet culture and engineered for virality, Felix combines premium branding, a fair presale, and an obsessive community to become the next iconic memecoin of this cycle.

HIGHLIGHTS

- ◆ Fair presale on PinkSale.finance — transparent allocation.
- ◆ 100% liquidity locked at launch.
- ◆ Renounced contract — fully community owned.
- ◆ Premium brand identity built to scale across every platform.
- ◆ Aggressive marketing & influencer rollout post-launch.

02 Mission & Vision

MISSION

Build the most recognizable cat brand in crypto — a memecoin so well designed, so well marketed, and so deeply loved by its community that it transcends the meme category entirely.

VISION

Felix becomes the flagship memecoin of Solana — referenced in mainstream culture, featured on major exchanges, and held by hundreds of thousands of believers worldwide.

CORE VALUES

- Transparency
- Community First
- Premium Brand
- Long-Term Vision

03 What is \$FELIX?

\$FELIX is an SPL token on the Solana blockchain. No utility promises, no roadmap of unrealistic products, no hidden team wallets. Felix is a pure memecoin — and that is its strength.
